# PFD FEATURES 3

## GAIA FOAM

Supersoft and environmentally friendly PVC free buoyancy foam.

## SNAG FREE CONCEALED SIDE ADJUSTMENT

Three point side adjustment from one pull. Cleverly concealed behind neoprene side panels. Reduces potential snag hazards.

## KARABINER POCKETS

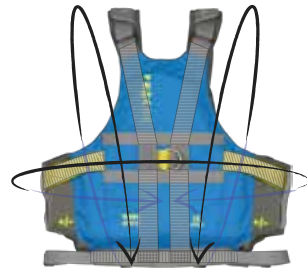

Vertical zip, easy access karabiner pockets with gear clips. Durable metal zip slider.

## ISO APPROVED

Conforms to the international safety standard EN ISO 12402.

## INTEGRATED SHOULDER, HARNESS & WAIST

Bombproof, fully integrated harness, waist and shoulder webbing design.

## KNIFE POCKET

Horizontal zip, easy access knife pocket with gear clip. Durable metal zip slider.

## OLYMPIC CUT

Inspired from the Olympic Gold Medal winning performance cut. Sleek, smooth and measured.

## ADJUSTABLE LENGTH HARNESS

Adjustable length harness for super quick and safe releasing when needed most.

## SEWN DRAINAGE HOLES

Stylish and functional drainage system.

## FIGURE HUGGING SHOULDER ADJUSTMENT

Adjust once. Clever and simple shoulder adjustment. Keeps clean lines whilst offering full length of adjustment.

## PADDED SHOULDER COVERS

Padded shoulder webbing covers for increased boat carrying comfort and protection.

## CAVERNOUS POCKET

Huge 3D pocket with gear clips and sewn drainage holes.

## RADIO POCKET

Vertical zip, easy access radio pocket with gear loop & clip. Perfect for iCom IC M71 radio. Non corroding plastic zip slider.

## H2O BLADDER POCKET

Large H2O bladder zip pocket with hanging clips. Zip opening at bottom for hose.

## FLARE POCKET

Vertical zip, easy access flare pocket with gear clip. Perfect for Pains Wessex Night and Day flare. Plastic zip slider.

# 4 PFDS

# 8 JACKET, SUIT & PANTS FEATURES

## ARTICULATED CUT

Refined cut for high performance freedom of movement during all your paddling moves.

## SEWN DRAINAGE HOLES

Stylish and functional drainage system.

## AQUAOUT SEALS

Reliable neoprene with Velcro seals. Tighten up for a better seal, open to ventilate.

## AQUAOUT WAIST

Snug and stretchy neoprene with super strong Velcro cinching to prevent water ingress.

## INNER WAIST GRIPPY ELASTIC

Creates a reliable, twin tube, sandwich system for your spraydeck or pants. Grippy logo elastic prevents riding up.  
**FOLD AWAY HOOD**

## SUPERSTRETCH NECK SEAL WITH STRAP

The softest, most comfortable and stretchy neoprene neck seal out there with integrated elastic tension strap and grippy print inside.

## ZIP POCKET

Featuring sewn drainage holes, gear loops and plastic non corroding zip sliders.

## HOOD TOGGLE

Simple, effective toggle to prevent your hood flapping around when not required. Just thread it through the hanging loop.

## HOOD

Streamlined fit with concealed cordlocks, dual tensioning shockcord and stiffened reflective peak.

Light weight X2.5 hood with concealed cordlocks, dual tensioning shockcord and stiff reflective peak. All zipped up neatly in a fleece lined collar.

## X4 SOCKS

Breathable, durable and waterproof four way stretch fabric socks with fully taped and flatlocked seams.

## LEG ENTRY ZIP

Patented design. Fully waterproof flexible, ankle to ankle, leg entry zip system.

## SHOULDER ENTRY ZIP

Fully waterproof, lightweight, flexible and curved zip. Shoulder positioned for easy entry.

## FLY ZIP

Fully waterproof, lightweight, flexible, vertically orientated relief zip.

## DOUBLE ENDED FLY ZIP

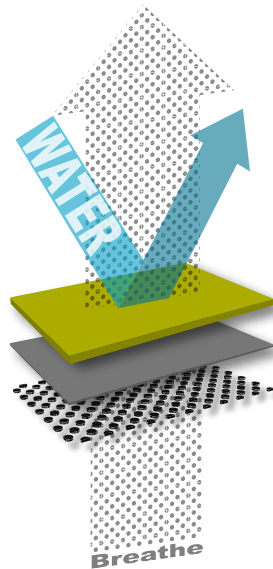

Unique double ended, fully waterproof, vertically orientated YKK Aquaseal 5mm relief zip.

SIZES: SM (52-58cm) LXL (54-60cm)  
COLOURS: BLUE. GREY. RED

# ADVICE 39

## Custom Gear & Artwork:

Artwork copyright for custom printing is the sole responsibility of the customer. Permission to use logos and images from the copyright owner must be obtained by the customer. Peak UK reserve the right to refuse to print inappropriate or poor quality artwork. Peak UK cannot guarantee perfect colour matching of fabric, printing or trim of any garments supplied. Variations in colour may occur between the final produced garment and pdf artwork proof file. Variations may also occur between orders.

## Specification & Sizing:

Peak UK reserve the right to change product specifications, colours and sizing without prior notice. Sizing may change from garment to garment and batch to batch. Our written size guide is for use as a guide only. We suggest customers try garments before they buy to guarantee fit.

## Risk:

Canoeing, kayaking and other watersports are high risk activities. Peak UK items do not guarantee rescue or survival. Users need the appropriate skill and training before heading out on the water. Peak UK one piece suits, jackets and pants are not survival or submersion garments. They are high performance items of paddling apparel.

## Warranty:

Under normal use, Peak UK products are guaranteed for one year from the date of purchase against faults in manufacture and materials. Your receipt is your guarantee. Make sure you ask for a receipt at the point of sale and keep it safe. Peak UK gear is designed and tested for performance canoeing and kayaking only. Using it for other activities unless clearly stated is at your own risk and terminates the products warranty and Peak UK's liability. Although Peak UK garments are made from top quality materials, using the best construction techniques available, they are not covered against excessive wear and tear, misuse, and over use. As a guide, a paddler who uses the garment two to three hours per week and looks after it well will get at least a years good use out of it. A professional, using it day in day out will need to replace the garment more often.

Peak UK garments will not keep users 100% dry. Some water may enter via the garment's seals and openings.

Condensation can build up inside even though the garment is breathable.

Breathability will reduce condensation, not eliminate it, especially in damp and humid conditions.

Due to the fragile nature of the materials used, dry zips, latex seals, neoprene seals and fabric socks are not covered by this warranty. They can be replaced for a reasonable fee. Please do not modify your equipment. This will invalidate the items warranty.

In the unlikely event of any problems, please return the item to the point of purchase with a copy of your receipt and a completed service form detailing the problem you are experiencing. The service form is available on the Peak UK website.

[www.peakuk.com](http://www.peakuk.com)

## Care:

Store your equipment in a dry, dark, and cool place, away from any bright light, strong fumes, dampness or heat. An ideal storage temperature is 10-20 degrees C. Make sure your equipment is fully dried inside and out before storing away. If you leave any wet garments in your kit bag for a few days they will go mouldy and lose their performance. If your garment begins to stink, wash it with Grangers Performance Wash and hang to drip dry. High areas of wear and tear such as the arm pits or your boat carrying shoulder may need some running repairs. Treat such areas with Aquasure Seamgrip adhesive.

From time to time reproof the garment's outer fabric with Grangers Xtreme Repel. Seamgrip and Grangers products are available from our online shop: [www.peakuk.com](http://www.peakuk.com)

## Dry Zips & Suits:

Lubricate your dry zip immediately after purchase. Visually inspect your suit and pant zips from time to time for any dirt or grit in the teeth as this will affect the seal. Clean the zip using a soft brush and fresh water, then re lube it before every use with TIZIP / YKK lube. Dry one piece suits both inside and out before storage. Store them with the zip fully open.

## Latex / Neoprene Seals:

To keep the seals in good shape, make sure you do not pull your garment on or off against them. Stretch each seal open when fitting and removing. If you drag the seals on and off they will fail and the taping may pop off. Be warned!!! Latex seals are designed to be cut to fit. If they are too tight, cut them down carefully and evenly with small sharp scissors, taking care not to leave any nicks. Cut off a small amount at a time, remembering that the seals will stretch a little with use.

Peak UK was formed back in 1990 when its founder Pete Astles was an up and coming slalom racer, funding his sport by working in a local kayak store. He fell ill and could not train for a few months, so became bored. As the products in the store were badly designed and sized poorly he decided to try making some garments of his own. With help from a sewing machinist friend they soon made a prototype jacket and PFD. His fellow slalom racers all wanted these jackets and PFDs, that's how it all began...

Pete borrowed some cash from his father, purchased a sewing machine, some fabric and foam, then learned how to make garments, for the first few years making almost all of them himself, buying new machines and learning how to operate them as he went along. Now 28 years on, Peak UK is arguably the world's leading brand of kayaking wear.

At Peak UK we pride ourselves as being world class innovators. All our products are designed and tested by us, in house and reflect our own paddling interests. We use only the finest quality materials sourced all over the globe. All our products are manufactured using the latest and highest quality techniques and machines available. Our test team and staff are the finest. Many World, Olympic and National Champions in all disciplines choose to use our products including Joe Morley (2 x Sickline Champion), Claire O'Hara (8x World Freestyle Champion), David Florence (2 x Slalom World Champion and 3 x Olympic Silver medallist), Michal Martikan ( the greatest Slalom boater on the planet ), Peter Kauzer (Olympic Silver), the Skantar cousins (Olympic Gold), Joe Clarke (Olympic Gold) and many more. We are also proud to be the official partners of British Canoeing, Glenmore Lodge and Plas Y Brenin - The National Outdoor Centres.

The Peak UK Kayaking Company is located in the heart of the Derbyshire Dales, near to the River Derwent at Darley Bridge. In 2012 we proudly built our very own purpose built factory on the edge of the Peak District National Park. The new premises enabled us to pioneer our production of custom kayaking gear in time for the London 2012 Olympic Games and our newest innovation, the Racer ST, which claimed Gold and Silver at Rio in 2016.

Our home, the Derwent Valley, is a World Heritage Site. The Industrial Textile Revolution began here more than 200 years ago. We are proud to have brought back a new Textile Revolution to the area.

Drop by and see us. We're open for visitors 5 days a week.
